3 February 2013

Dear members

You will be aware that your Chairman, Phil, and Rosemary had a meeting with Darwin on 28 January.

We can report that the meeting was positive and the outlook for the future is promising. Phil and Rosemary are currently agreeing joint notes of the meeting with Darwin, and we will advise you of more details as soon as these are available.

A number of owners have contacted the Owners' Association with concerns about the latest letter from SBV about a permanent address. This letter need not be a concern to anyone and we are sure that the documents asked for will be acceptable if we take them on our next visit when the park opens in March.

We will advise later in more detail in Newsletter 55 to be issued shortly.
